ABOUT

I am a Full Stack Software Engineer with experience in Python, Flask, and DevOps. I am excited to combine my skills in software development with my love of teaching and learning to create new digital businesses. I recently developed a Flask API backend with a React frontend where you can play a trivia game and manage questions among some categories.

EXPERIENCE

Product Manager
2014 - Present

TIM S/A
Rio de Janeiro

- I currently manage the Private Network portfolio, with up to 50 million USD commercial proposals in various industries, including Mining, Ports, Utilities, Smart Lighting, and Connected Cars.
- Closed the deal to implement the first 5G private network, in the port sector, on the Latin American continent.
- Launched Blah app with over 9M views, over 3M downloads, App of The Week on the Apple Store, and was twice the most downloaded app on Google Play.
- Led a team of testers in assembling 1,000 scenarios of device testing operation.
- Based on user feedback, we fixed nearly 3,000 issues.

Skills:

`Product Management` `Product Strategy` `Product Development` `MVP` `Agile Methodologies` `New Business Development`

Founder
2008 - Present

GOALMOON.COM

- I manage multiple hosting platforms to provide web designers with a hassle-free solution.
- I also assist them with WordPress management, theme, plugin selection, and maintenance.
- Adopted the Lean Startup method and published 20+ websites. Used customer feedback to find a profit model.
- Programmed an iOS App in Objective-C and issued it to Apple App Store.

Skills:

`Software Development` `Cloud Computing` `Web Hosting` `E-Commerce` `SEO` `Digital Marketing`

Project Manager
2010 - 2014

TIM S/A
Rio de Janeiro

- Led the Blah app development, which resulted in 4,000 hours of coordination with more than 35 different departments, from Legal to IT, and a multicultural team.
- Managed blah's design agency's activities, producing 1,400 layouts, including wireframes and prototypes.
- Developed an Excel VBA-based KPI analysis platform to receive and process 3,900 services' weekly data, achieving 95% cancellation efficiency.

Skills:

`Project Management` `User Experience (UX)` `PMBOK` `Jira` `Branding & Identity` `VBA`

Technical Advisor

2003 - 2010

Londrina

- I supported a team of 5 Key Account Managers responsible for 300 clients and 3M USD in annual revenue.
- Successfully launched the M2M segment employing hybrid GSM and satellite location modules for the first time in Brazil, resulting in 45,000 gross adds.
- Achieved an average mean target of 227% over 63 months, 47% above company results.

Skills:

`Technical Sales` `Presentation Techniques` `Team Management` `VAS` `Mobile Devices`

CTO

DIRECTLINK INTERNET BY RADIO

2000 - 2003

Londrina

- Developed Java, JSP, and Database classes using Excel VBA, which improved development time by 85%.
- Successfully deployed the DirectLink system in 7 cities, averaging 300K inhabitants.
- Has built 150 points of presence on a 400 servers radio network, supporting 2K subscribers.

Skills:

`Java` `JSP` `MySQL` `HTML` `CSS`
